COMMENTS

The Group's revenue for the nine months ended March 31, 2024 decreased compared to the same period last year driven by a reduction in prices of vegetable oils. The Group reported a profit after tax of Rs. 58.2M (March 2023: Rs.74.4M) and the company a profit after tax of Rs. 47.3M (March 2023: Rs. 60.5M). Segment result for oil products decreased by 11.8% whereas the food products segment increased by 12.2%. Our production capacity will be enhanced following our new investment to improve operational efficiency in order to meet market demands. The Company's financial performance reflects the perseverance and adaptability of our business model in spite of the high volatility in the prices of vegetable oils and fierce competition. The outlook for the last quarter is expected to be positive with the need to remain vigilant and responsive.
